

VERNON PRESENTS CLAIM FOR TECHNOLOGICAL SCHOOL

WILBARGER OFFERED BETTER INDUCEMENT TO BUILD HIGHWAYS

Officials Visit Vernon
After Trip Over High-
way and Pledge Maxi-
mum Aid to County

Wilbarger County can complete the paving on the Colorado-Gulf highway to the county line each direction and get the Lee highway paved clear through the county from the Red river to the Foard County line by voting bonds to take care of only one-third the cost of the work.

This was the statement made by two members of the State Highway Commission, Chairman R. M. Hubbard of New Boston and D. K. Martin of Tucson, who were here Sunday afternoon following a trip over the Lee Highway from Plainview to Vernon.

Some time ago County Judge E. L. McHugh was informed by the Commission that State and Federal aid would be given to the extent of two-thirds of the cost on the Colorado-Gulf highway and to the extent of one-half the cost of the Lee highway.

The two Commissioners were so impressed with the importance of the territory served by the Lee Highway however, after making the trip over it from Plainview to Vernon that they agreed to raise the allowance of aid on this road to the maximum set for the Colorado-Gulf highway, which is one of the most important highways in the Southwest.

This proposition means that Wilbarger County can get approximately forty miles of additional paving at an estimated cost of \$400,000 per mile for an outlay of only \$400,000. This improvement would give two paved roads through the county to the adjoining county line in each direction. The bond issue to cover the County's share of the cost of these roads would necessitate a tax levy of not to exceed 25 cents on the \$100 valuation.

One of the chief reasons the two Commissioners made this exceptional offer, as explained by them, is the type of roads which have been built in this county. The two Commissioners very frankly stated that in their opinion there are no better roads in Texas than the paving which has been done here, and they feel that not a penny of the aid which they have extended in the past has been wasted. Their confidence in the manner in which the County Commissioners have handled road money in the past led them to make the offer which they submitted Sunday afternoon, according to opinions expressed in the informal conference held at the Hotel Vernon soon after their unexpected arrival here from Plainview.

Both Commissioners Hubbard and Martin were accompanied by their wives and they were guests at an informal dinner given them by local people at the Hillcrest Country Club Sunday evening. Members of the party were enthusiastic in their praise for the appearance of Vernon as a city and of the hospitality of the people. They left early Monday morning for Fort Worth and other points east to continue their inspection of a number of highway projects.

Commissioner Hubbard says the progress in highway development in Texas is highly satisfactory at least twenty-seven million dollars worth of highway improvement is under way in Texas at the present time, he said.

Touring Colorado

Mr. and Mrs. S. A. White and Mrs. Foster Edmison and little daughter left yesterday for Denver and Colorado Springs. They went by automobile and will be gone about three weeks.

To Undergo Operation

Miss Mary Katherine Massie will leave this afternoon for Rochester, Minn., where she will undergo a minor operation at the Mayo Brothers Institute. She will be met in Amarillo by her aunt, Miss Grace Massie, who will accompany her.

BLIND SINCE BIRTH SIGHT IS RESTORED

Lillian Palen

Eight-year-old Lillian Palen, of Lodi, Ind., blind since her birth has had her sight restored by a delicate operation performed by Dr. Joel Whitacre. Four years after birth she was abandoned by her parents. Her pitiable case was brought to the attention of Dr. Whitacre, who charitably removed the cataract from her eyes, giving her sight.

VERNON SCHOOLS GIVEN CREDITS

TOTAL UNITS NOW AS HIGH AS
MANY SCHOOLS IN LARGER
CITIES OF STATE

Vernon's Public Schools now have a total of 29 1-2 units of affiliation. This makes the schools here among the highest in the state, ranking with schools in cities four and five times this large.

Notice of two additional credits being granted was received yesterday by Superintendent E. L. Dohoney. The additional credits are for one half unit in each of the four following subjects: domestic art, trigonometry, economics and manual training.

When Mr. Dohoney came to Vernon two years ago as superintendent of the city schools there were only 22 units of affiliation. He has built the schools up in the two years until they now rank with the best in the state, only a few cities in Texas having more credits than Vernon.

Farmers Can Pork for Year's Supply at Ronda Friday

There was a day of pork canning at the W. W. Welch home, near Ronda, Friday of last week. Mr. Welch and Alf Bond both killed hogs and Mrs. Edna Goodfellow, home demonstration agent, supervised the canning.

There were about 24 people, who participated in the canning and more than 250 cans of frozen pork were put up in the form of sausage, canned spare ribs, fried pork steaks, back-pork and in addition to all the canning 40 pounds of lard was rendered.

MAN HAS HAND MASHED IN OIL RIG ACCIDENT

Edgar Walker, of Iowa Park, is in a local hospital with three fingers gone from his right hand as the result of an accident at an oil rig near Oklaunion yesterday morning. His hand was crushed when some heavy material fell on it and three fingers had to be removed.

Mr. Walker was brought to a hospital here where he was reported this morning to be resting well.

Back From El Paso

Miss Minnie Foster has just returned home from Roswell, N. M., and El Paso where she and her sister, Mrs. J. B. Ray, of Tahoka, have been visiting. Mrs. Ray accompanied Mrs. Foster home and will visit here for a short time.

THOUSANDS HERE FOR FORD DAY PARADE MONDAY

Visitors Begin to Throng
Streets Early in Morn-
ing and Town Crowded
by Time Parade Starts

Ford day in Vernon, Monday, was a whaling success. It was estimated by business men that more than 5000 people were here for the day from nearby communities and there were many here from out of the county.

The crowd began to gather early in the morning and by time the parade started at 3 o'clock the streets were crowded with people. Cars were parked several blocks away from the square as the downtown streets were so crowded there was no more parking room.

The parade started at 3 o'clock led by the Vernon Concert Band. There were all kinds of Fords in the parade. There were big families, small families, ugly men, good looking women, tall men, short men, bobbed haired girls and every prize offered attracted interest.

As soon as the judges made their decisions those who won prizes went to the stores that offered them and were given the articles offered.

As Ford Day was also Dollar Day, the merchants had on special sales and hundreds of those who came here for the day took advantage of the cheap prices offered.

A booth erected downtown by the women, who are improving Allingham Park, to serve refreshments, did a land office business. The proceeds of the sales are to go into the fund for improving the park. The day was remarkably free from any disturbances and all who came here entered into the spirit of the event.

Railroad Man Hurt When Car Derails on Frisco Tracks

John B. Grey, of West Plains, Mo., has been sent to the Frisco hospital as the result of an accident here last Friday afternoon. He was working with a crew on the Frisco road when a tank car, which fell from the rails crushed one of his hands badly, one of his little fingers being crushed off.

Mr. Grey was given attention by the company's surgeon here and was then sent to the company hospital. He is 42 years old.

Easterling Is Made Official Reporter for District Court

T. R. Easterling has resigned as Deputy County Clerk of Wilbarger County and has gone to Childress, where he will assume his duties as official stenographer for the newly created 100th District Court. He assumed his duties yesterday.

C. D. Greene has been appointed Deputy County Clerk to succeed Mr. Easterling and assumed his duties here yesterday.

Missionary Union for Two Counties to Meet Here Soon

The Woman's Missionary Union of the Wilbarger-Foard Baptist association will meet at the Vernon Baptist church in convention, August 14, 15, 16, and 17. Three books will be taught. They are: W. M. U. Methods, How To Pray and Strength to Strength. All women of the churches of the association are asked to attend. Detailed plans for the meeting are being made and will be announced later this week.

N. P. Whitesides, of Tolbert, who has been very ill for some months left Saturday for North Carolina, where he will make his home with a brother.

LATE PICTURE OF THE NEW PRESIDENT

This is the latest picture of the New President of the United States. The picture of President Calvin Coolidge and members of his family, was taken at Plymouth, Vt., last week. He was visiting his father, John C. Coolidge at the time President Harding died. With President Coolidge in the picture are Mrs. Coolidge, their sons, Calvin Jr., and John and the President's father.

JUDGE M' HUGH IS COUNTY AUDITOR

HAS BEEN OFFICIAL IN COUNTY
FOR MORE THAN 20 YEARS
HAS PROGRESSIVE RECORD

Judge E. L. McHugh tendered his resignation as County Judge of Wilbarger County after many years service, and has been appointed county auditor for the county. He will take up his new duties in about 20 days.

Judge McHugh served the county in various official capacities for more than 20 years. During his administration as County Judge, Wilbarger county has made many rapid strides and in that time several miles of paved road have been put in and pronounced by engineers to be the best road obtainable. The road building program is still on here.

No information has been given out as to when the County Commissioners will name Judge McHugh's successor but it will more than likely be some time just prior to his assuming the duties of county auditor.

V. A. Baker Takes Buford O. Brown's Place on Newspaper

Announcement has been made by The Electra News that V. A. Baker will succeed Buford O. Brown as editor-manager of that paper. Mr. Brown has accepted an appointment as professor in journalism in Leland Stanford University in California and will leave the latter part of this month to assume his duties there.

Mr. Baker has been connected with the Electra Star for some time and before going to Electra was connected with Wichita Falls newspapers. He is a veteran of the world war and before the war he had some experience in a bank in California.

ODD FELLOWS TO PRACTICE AT WOODMAN HALL TONIGHT

The local degree staff of Odd Fellows will practice at the Woodman hall tonight owing to the fact that the Rebekahs will use their hall for drill work at the same hour. Both teams are preparing to compete next week at Quannah at the annual meeting of the Lower Panhandle Association of Odd Fellows which meets August 15 and 16.

Marriage Licenses

Marriage licenses were issued this week to E. E. Hoffman and Mrs. Maudie Mae Dean; Guy Traylor and Dall Reynolds; T. J. McGill and Miss Gladys Allison.

LOCAL GOLFERS IN CONTEST SATURDAY

PLAYERS HERE SATURDAY FROM
WICHITA FALLS FOR UNOFFICIAL
GAME WITH LOCALS

Tommy Cochran, runner-up in the state golf tournament, and Judge Finlay Weldon, both of Wichita Falls, staged an informal golf match on the Hill Crest club course here last Saturday against R. B. Gibson and Hy Rogers, local low score men. The result was victory for the visitors.

Mr. Cochran has been playing in form for the last few years that he has more than once been near the state championship and lost out in the last meet by a narrow margin. Judge Weldon is one of the best players from the Wichita Falls club. Both men played in good form here Saturday but at that, they had been competition from the two local players whose form is becoming better all the time and their scores are getting down to the low line.

John Storey Plays Lucky on Friday in Wichita Falls Crash

Some people may consider Friday an unlucky day, but for District Attorney John Storey it is exceedingly lucky.

Last Friday morning the district attorney, with a friend, was drinking his early morning eye opener at the soda fountain in Tipton's Drug Store in Wichita Falls. Just as he finished and walked out the door there was a crash behind him, followed by screams and moans. He turned and saw where the ceiling had fallen, heavy metal, light and all. Three persons were seriously injured and in the spot where Mr. Storey had stood one of the heaviest parts of the ceiling had fallen.

"I more than likely would have been killed had I been in that spot when the ceiling fell," Mr. Storey said.

ELDERLY MAN DIES HERE MONDAY NIGHT

J. K. Langley, 79, of Thalia, died in a Vernon hospital last night after lingering illness. He was brought to the hospital some time ago when his condition became grave, but every effort to save his life proved unavailing.

The body will be taken to Thalia tomorrow and the funeral will be held from that place.

Mr. and Mrs. Joe Foerster, of Lockett were business visitors Monday.

LOCATING BOARD IS GIVEN HEARTY WELCOME BY VERNON RESIDENTS AND THEN TAKEN TO SITES OFFERED HERE

Formal Presentation of Claim Made This
Morning When Citizens Gather to Meet
Board in Chamber of Commerce and
Proposition Outlined in Brief

Vernon's claim for the West Texas Technological College is in the hands of the locating board. The board, consisting of S. B. Cowell, chairman; W. R. Nabours, secretary; Dr. William S. Sutton, acting president of the University of Texas; Dr. W. B. Bizzell, President of Texas A. and M. College; Dr. F. M. Bralley, president of the College of Industrial Arts and S. M. N. Marrs, State Superintendent of Public Instruction, left here at noon today after having made a thorough investigation of the situation offered here.

After leaving Quannah yesterday the board was met at Chillicothe by about 300 Vernon boosters in automobiles, headed by the Vernon Concert Band and the Shrine Drum Corps. They were escorted to their hotels here. In the evening were given a dinner at Hill Crest Country club.

Early this morning the board was taken to the two locations offered for the college. The one location of 2,000 acres was offered South of the city on the highway and the other was the Bourland farm east of the city with 300 acres immediately adjoining the city on the East as a campus site. The locating board was also taken for a drive through the city and shown the tourist camp and other points of interest.

At 10 o'clock the locating board and citizens assembled in the Chamber of

Commerce and Vernon's claim was formally presented by R. H. Nichols, president of the Chamber of Commerce. Mr. Nichols pointed out the many advantages offered by Vernon. He reviewed the bill creating the college and told how Vernon is entitled preference to the objects set forth in the bill. He mentioned the railroad connections from points in all sections of Texas and Oklahoma, the two highways, the proximity to the oil fields and the big Wichita River irrigation project as well as the advantages of soil, climate and water here. He pointed out the fact that Vernon is a town of homes and Wilbarger county is a county of homes and the best of environment are to be found here for a college. He said the college will receive the support of this city, regardless of where it is located.

Senator S. B. Cowell, chairman of the board, replied to Mr. Nichols saying the board appreciated the manner in which the claim of this place has been presented and that it will be given due consideration.

The board will go into its first formal business session at the Texas Hotel in Fort Worth tomorrow morning. All claims will have been received at that time, Vernon being the last, and no arguments or more evidence will be considered after today.

The locating Board members were guests of the Rotary club at luncheon today before departing for Fort Worth.

OIL ACTIVITIES AT HEIGHT HERE

THREE WELLS GOING DOWN IN
IMMEDIATE VICINITY WITH
OTHER LOCATIONS MADE

There is more oil activity in the immediate Vernon territory at this time than at any other time since the boom. There are three wells going down in the immediate vicinity of Vernon and other locations have been made. Unusually good indications have been found in a hole being drilled a few miles south of Vernon by local oil men. This location is near where a well was lost several weeks ago.

McCaleb well North of Vernon, is reported to have encountered splendid indications of oil and the well being drilled East of Vernon by Murchison and Pigg is on a location near where five sands were found a number of years ago.

The King well near Oklaunion is going down rapidly and being watched with much interest.

Oil men from various parts of the state have come in within the last few weeks and all wells in this vicinity are being watched closely.

Blackie Garner Is Freed from Charge of Murder in Archer

J. J. (Blackie) Garner, made bond in Archer City Friday and secured his liberty until trial on a charge against him here. He had been held there in connection with a recent oil field murder but was released when he proved to the satisfaction of the officers that he was not the guilty party. Another man is said to have confessed to the oil field killing for which Garner was held for a while and two others were connected with the incident.

LEGION MEMBERS TRANSFORM PARK

WITH WHITEWASH AND HAND
AXES THEY MAKE TOURIST
PARK SHOW UP WELL

The Vernon Tourist Camp has been transformed within the last few days. It shows up from the highway for a long distance and is attracting attention of people who pass without stopping, as well as those who stop.

The big feature of the transformation was the cutting of the brush and whitewashing of the trees by members of the local post, American Legion. With hand axes, whitewash and brushes members of the legion went to the park on three afternoons, whitewashed all the trees, cut the undergrowth in the park and outside on the road front away and burned it.

This improvement, in addition to the recent installation of more lights, free telephone and other equipment has made the park among the most convenient in the country.

Lem Richards Held on Liquor Charge in Foard County

Lem Richards was arrested here late last week by members of the sheriff's force on a warrant from Foard county charging him with manufacturing liquor. He was released on bond pending his trial.

When officers from four counties, including Wilbarger, made a drive on a location in Foard county last week they found where a still had been operating, found mash and found a car belonging to Richards. The sheriff of Foard county later filed charges against Richards and he was arrested here.

Guy McClendon left this morning by automobile for Colorado Springs, Colo., and other points in that state.

GOD IS FATHER OF ALL SOULS

UNIVERSALIST MINISTER EX-
PLAINS DOCTRINE IN SERMON
AT TALMAGE SUNDAY

Rev. R. L. Brooks, who has been conducting a series of meetings at Talmage, spoke on the five fundamentals of Universalism in his Sunday morning sermon. Mr. Brooks said in part: "This morning I am going to discuss the five fundamentals of Universalism from both a philosophical and scriptural standpoint."

"The God in whom the Universalists believe is the Father of all souls. Have we not all one Father? Hath not one God created us? Mal. 2:10. The fact that we have a spiritual nature in the image of God who is spirit John 4:24, and are capable of discerning things of him as well as serving him proves natural relation to him as to character but few are sons and daughters. 'Son of perdition,' 'child of wrath,' 'children of disobedience' etc. are expressions of character and not of nature."

"The law of progeny makes it impossible to change natural relation. The child is as much a child of his father in disobedience as in obedience just as the prodigal was as much a son while steeped in sin as before going away or after his return. This is universally recognized in the natural realm. Though a son goes off in sin and years afterward returns with human bloodstains on his hands and the mark of a criminal upon his brow he is considered none the less the son of his parents."

"The world may expect to continue having war and bloodshed, economic, social, moral and spiritual disorder until the preachers proclaim and the people believe and practice the universal Fatherhood of God and the universal brotherhood of man."

"Christ is the key of the arch of the temple of pure religion. He is the mediator between God and man, the man Christ Jesus who gave himself a ransom for all to be testified in due time. 1 Tim. 2:5, 6. Christ says 'He that believeth on me hath everlasting life.' John 6:37. He has this life now while he believes and obeys. One's obedience to Christ is the measure of his faith in him. Faith only will not save, but faith that works by love. Jas. 2 Chapter."

"We have hardly tried the Christian religion. Just here and there are those who have made any appreciable progress to that end. But Christianity is not a failure. We are failures who do not use it."

"Too many 'get religion' and pack it away in their suit cases or top boxes with moth balls expecting it to carry them safely over into Heaven after death, depending thus upon mere faith once expressed to save them from past, present and future sins as well as the consequent punishments not realizing that pure religion is a life of daily service, being and doing. Jas. 1:27."

"All scripture is given by inspiration of God, and is profitable for doctrine, for reproof, for correction, for instruction in righteousness." 2 Tim. 3:16.

"While we believe the Bible contains a revelation of and from God we do not believe it contains all the revelation. God is too infinite in all his attributes, comprehending entirely too much to be bound up between the two lids of any book or number of books. He is omnipresent, limited only by the infinity of space; omniscient so that nothing is beyond his comprehension, declaring the end from the beginning." Isa. 46:10. Omnipotent so that no power or combination of powers can defeat him in whatever is comprehended in his infinite wisdom and goodness."

"By him are all things. The law of philosophy, science and invention which, to our shame, has improved and modernized everything except religion, is the channel through which revelations are daily being made. True religion is progressive. Paul says 'grow in grace and knowledge.' Christ taught that greater things than he did would be done. 'Let us go on unto perfection' says Paul. Just as we use our talents in developing the use and application of electricity according to a fixed law which is sure reveals to us a new world of accomplishments that will make the present fade into insignificance, so must the church of tomorrow unfold to us through religion and law of the spirit a world equally transcendent."

"Religion is not fixed in principle. Man is not made, finished, perfected, but being made, finished, perfected. We believe in the certainty of punishment for sin. On this point, as perhaps on no other, Universalists are ignorantly and some times maliciously misrepresented. Most people who differ from us when asked what we believe say 'they don't believe in hell, or punishment.' But in fact the Uni-

LIKED SISTERS SO WELL, HE MARRIED TWO

E. O. Davis and Mrs. Davis No. 1
Below - Mrs. Davis No. 2

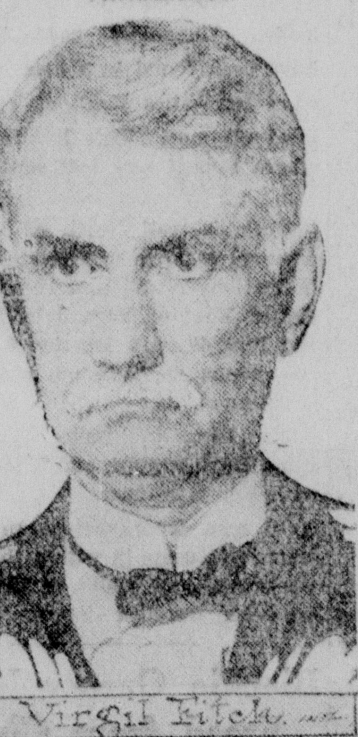

E. O. Davis, of Los Angeles, is under arrest there on a charge of bigamy, he being alleged to have married the two Stocklin sisters, Anna and Theresa, so well, he married both.

versalist church is the only one which specifically states in its profession of faith belief in the certainty of punishment for sin. In evidence we offer the following: 'Be not deceived, God is not mocked; for whatsoever a man soweth that shall he also reap. Gal. 6:7. And he that doeth wrong shall receive for the wrong which he hath done, and there is no respect of persons.' Co. 2:25. 'God will by no means clear the guilty.' Exodus 1:17. Punishment is not only certain, but just, according to the deeds done in the body. 'For the work of man shall render unto him, and cause every man to find according to his ways.' Prov. 24:11. Also unto the O Lord, belongeth avenge; for Thou renderest unto every man according to his work.' Ps. 62:12.

"The doctrine of endless punishment, as taught by many, holds a hungry child, who steals a loaf of bread as guilty as the hardened criminal of seventy five years, who has robbed, dissipated and even murdered, because they make no difference in the punishment administered. We seem to recognize justice in every thing but in religion. We protest at the injustice of the law and its application in the courts of our land but worship a God whose government is a million times worse if the doctrine of endless punishment be true."

"Just punishment implies more than punishment according to the deeds done in the body. It implies that God who inflicts it has a purpose and that that purpose is for good, for God could

HE APPLIES BLUE LAWS WITH VENGEANCE

Virgil Fitch, prosecuting attorney of Mason County, Mich., has a way of getting back at puritanically-minded women of his county who insisted that dance halls should be closed on Sunday. Mr. Fitch promptly began a study of every blue law on the statute books of Michigan and began applying them with a vengeance in Ludington, the county seat and the rest of the county. "What's fair for one is fair for all," he asserts. The first person he was called upon to prosecute was his own son, charged with dancing on Sunday.

TEXAS FACTORIES WORTH MILLIONS

MANUFACTURED PRODUCTS IN
THIS STATE EACH YEAR VAL-
UED AT 1 BILLION DOLLARS

There is a total investment of approximately \$800,000,000 in Texas industries, according to a recent report made by Burt C. Blanton, manager of the industrial department of the Texas Chamber of Commerce. The amount invested in industries is divided between 6,520 manufacturing plants, which turn out products each year valued at approximately \$1,000,000,000. Speaking of industries, Mr. Blanton said last week:

"The total capital invested, based on reproduction cost, in seven classes or groups of industry in Texas, namely: Compresses; cotton gins; cotton seed oil mills; cotton textile mills; cement manufacturing plants; ice and cold storage plants; and power and light plants, amounts to approximately one-half of the total investment in the State, the survey shows to date, or approximately \$397,000,000."

"The total investment in the cotton industry in Texas namely: compresses; cotton gins; cotton seed oil mills; cotton textile mills; based on reproduction cost, is approximately, \$115,000,000."

"There are 3,611 cotton gins in the State of Texas, representing an original investment of approximately \$3,110,000," Mr. Blanton said. "The replacement cost in this industry would run from approximately \$54,165,000, to \$72,220,000. Total rated output of cotton gins in Texas, based on a ten hour run, is approximately, 123,385 bales," said Mr. Blanton.

Cotton Seed Oil Mills and By-Products Plants

"There are approximately 161 cotton seed oil mills and 61 by-product cotton plants in Texas."

"The total original investment in cotton seed oil mills was approximately \$14,490,000, while the replacement cost would amount to in excess of \$25,000,000," said Mr. Blanton.

"The total rated capacity of cotton seed oil mills in Texas amounts to about 15,000 tons of seed per day."

"There are twenty cotton textile mills and two knitting mills now operating in the State of Texas representing an investment of approximately \$1,000,000."

PRESIDENT LEWIS PREDICTS ANTHRACITE COAL STRIKE

John L. Lewis

John L. Lewis, president of the United Mine Workers of America, in commenting on the refusal of the anthracite coal operators to recognize the union and adopt the "check off" system, by which the operators would collect union dues and fines, declared in Atlantic City, his belief that this winter will see another hard-coal strike and that it might even extend to the bituminous fields.

senting a total investment, based on current values, of approximately \$25,000,000," Mr. Blanton said, "with a total of 177,336 spinning spindles; 4,433 looms, and 150 knitting machines."

FORECASTER'S WEEKLY WEATHER BULLETIN

Washington, Aug. 6, 1923.—One more cross-weather month to encounter in the crop-weather season; corn, the greatest grain crop of America, is at stake. September is favorable to such except the week centering on Sept. 10.

Section 1: North of 47, between 90 and Rockies' crest; warm Aug. 9 and 10, cool 14 and 22, average warm; severe storms and some rain near 18. Section 2: North of 47, east of 90; warm Aug. 11 and 21, cool 16 and 24, average warm; severe storms and some rain near 18.

Section 3: Between 39 and 47 and between 90 and Rockies' crest; normal temperatures Aug. 11, cool 14, normal 19; average cool; severe storms and some rain near 17.

Section 4: East of 90, between latitudes 39 and 47; warm near Aug. 11 and 23, cool 14, normal 20; average warm; severe storms and some rain near 19.

Section 5: South of 39, west of 90; warm near Aug. 11, cool 16, normal 22; average cool; severe storms and some rain near 19.

Section 6: South of 39, west of 90; warm near Aug. 11, cool 16, normal 22; average cool; severe storms and some rain near 19.

Section 7: North of 43 1-2, west of Rockies' crest; warm near Aug. 11 and 15, cool 13 and 19, average warm; severe storms and some rain near 21.

Section 8: South of 43 1-2 to Mexican line, west of Rockies' crest; warm near Aug. 11 and 15, cool 13 and 17; severe storms and some rain 21.

I began publishing these weekly weather bulletins August, 1880, in the Chillum, Missouri, Tribune, and this is weekly number 2355 more than 43 years, without missing a week and the copy for every one was written by my own hand all pencil. Beginning with last part of September I am promising the most wonderful success ever known in weather forecasting. I do not mean better than U. S. Weather Bureau forecast published one day in advance but more wonderful because written from one to twelve months in advance. Charts will be simplified; more like the old, easily understood; storm tracks and precipitation more clearly located and defined; improved forecasts on Gulf hurricanes. Critics are invited to criticize after middle of September.

Morgan Ramsey returned home Saturday from a visit in Honey Grove. He was accompanied home by Mr. and Mrs. T. F. Ramsey and children and Miss Maude Lee Ramsey.

BEST PROSPECTS FOR S. M. U. TERM

METHODIST COLLEGE IS FACING
BRIGHTEST YEAR IN HISTORY
ACCORDING TO PRESIDENT

Dallas, Texas, August 6.—Prospects for the year 1923-24 at Southern Methodist University are the brightest since the foundation of the school, according to Dr. C. C. Sealeman, president. Dr. Sealeman forecasts that the year will witness completion of the \$1,000,000 endowment campaign, construction of the new building, Kirby Hall, to house the School of Theology, growth of the student body to nearly 2,500, and last, but not least in the minds of the undergraduates, the most successful athletic season in the school's history.

Since commencement two announcements of importance have been made: the appointment of Mrs. S. J. Hay, wife of the former mayor of Dallas, to succeed Miss Emily Reid as Dean of Women, and the building of a temporary wooden structure to house the Chemistry Department. Dr. Sealeman was particularly pleased at obtaining the services of Mrs. Hay, and the erection of a Chemistry shack will be news of interest to those students who have had to suffer the inadequate quarters formerly assigned that department. Work has begun on it this month.

Under the supervision of a finance committee headed by Bishop John M. Moore, the final touches are to be put in the coming year on the drive for the remainder of S. M. U.'s share in the \$1,000,000 endowment, one-third of which will be given by the Rockefeller General Educational Board. Unexamined liberality of friends of the school during the year just passed leads the University authorities to believe that the amount, approximately \$480,000, still to be raised, will be in hand by March, 1924.

Architects are finishing up the plan for Kirby Hall, named after Mr. and Mrs. Harner Kirby of Austin, who gave the \$100,000 for its construction. Foundations for the building have been staked off, and excavation will begin in the immediate future. Dean Paul B. Kern of the School of Theology expects to move his staff and students in soon after Christmas.

Dr. Sealeman's belief that the student body will come near the 2,500 mark is substantiated by the average rate of growth since the institution started, in 1915, with 700 students. Since then the growth has been: 1310; 823; 1917, 779; 1918, 864; 1919, 1,399; 1920, 1,341; 1921, 1,711; 1922, 2,051. If the attendance continues to increase at the rate indicated, there will be a total of 2,200 next year.

CARD OF THANKS

We wish to thank each and every one of our loyal friends and neighbors for their help and comfort extended to us during the illness and death of our darling baby girl.

May God's richest blessings be bestowed upon each of you is our earnest prayer.

McMurry College Is to Open Doors for First Time This Year

McMurry College, at Abilene, will open its doors this year for the first time. The college term begins September 19 and the new buildings will practically all be completed by that time, according to word that has been received from Abilene.

After telling of the splendid administration building the college has almost completed, a recent article on the following information:

Carrying out the architectural plans for the grounds, a second building which will be used this year as a dormitory for the young women, is now under construction and will be completed by the first of September. At a later time it is proposed, when the dormitories both for the boys and the girls, as outlined in the original plan, are completed, to use this building as a co-operative home, but for the present it will constitute a commodious and handsome home for forty four young women.

"Building adjoining the grounds are nearing completion and will be ready for occupancy by the boys before the opening date. A visitor to the grounds is impressed with the fact that the hill is literally alive and pulsing with the energy of the great church that is entering upon its divine mission for the Christian training of the youth that have come within the pale of its influence.

"In the establishment of an institution, of the character of McMurry College, there are four points to consider in its affiliation with the higher institutions of learning that are of vital importance to every student entering its door. These are: first the buildings; second, equipment; third faculty and fourth, maintenance. In the building of this college all four of these points have been safeguarded from the first. The administration building will take rank with school buildings of the first rank in Texas. In the construction, size and arrangement of the Administration offices, the President's, Dean's and Bursar's offices, the Teachers' offices, Library, class rooms, laboratories and Fine Arts departments, the building is far in excess of the requirements of the State Board of Education.

WELL KNOWN YOUNG
COUPLE MARRIED SUNDAY

In the presence of a few close friends of the couple Miss Gladys Allison and T. J. McGill were married Sunday morning at 9 o'clock. The ceremony was read by Dr. L. J. Mims, pastor of the Baptist church at his home on South Main street.

After the ceremony, Mr. and Mrs. McGill left for a nexted wedding trip.

The bride is the daughter of Mr.

CUNO GOVERNMENT LIKELY TO
FALL SHORTLY

The cabinet of Chancellor Cuno, of Germany, is expected to resign when the Reichstag convenes shortly, to be succeeded by a Ministry headed by Dr. Gustav Stresemann, leader of the People's Party and a leading industrialist. Stresemann has told President Ebert he would take over the reins of government if he was given dictatorial powers and was permitted to make a coalition with the Socialists, who have adopted an attitude of benevolent neutrality toward the German Government.

RICH SUITOR SLAIN FOR ANNOYING HER.

Miss Jane Remington

Miss Jane Remington, beautiful amateur actress, of Morris, Ill., complained to the police there that Blaine Beach, a wealthy Joliet merchant, with whom she had been friendly, but from whom she had become estranged, was annoying her with his attentions. When he appeared near her home at night recently a deputy sheriff was sent to investigate. The officer thought Beach reached for a revolver and shot him to death.

and Mrs. J. D. Allison, of West Texas, numbered among the pioneer people of Wilbarger county. He is a graduate of the local high school and received his A. B. degree at Southern Methodist University. Mr. McGill is a member of the Methodist church and is very prominent in church affairs. He is assistant manager of the Long-Bell Lumber Company here.

On their return Mr. and Mrs. McGill will make their home, for the

present, with his mother on West Wilbarger Street.

MRS. COFFEE ENTERTAINS SATURDAY BRIDGE CLUB

The Saturday Bridge club was entertained Saturday afternoon by Mrs. R. H. Coffee at her home on West Paradise street.

Three tables were played and Mrs. W. K. Long won high score for guests. Mrs. C. E. Warren was high for the club members and Mrs. Roy Martin received the prize for low score. An attractive salad course was served by Mesdames W. K. Long, C. E. Warren, Roy Martin, Hub Colley, C. D. Ashenurst, Harry Robinson, Joe Parker, Everett Hancey, C. E. Swartwood, W. E. Colley, Fred Thompson and R. B. Gibson.

E. L. McHugh has been in the service of Wilbarger County so long that the courthouse would hardly seem complete without him. As County Clerk, Tax Collector, Judge and in other official capacities he has rendered signal service to the County, but in none of his work has he been able to bring into full play his qualifications and abilities combined with familiarity with the County business to the extent that he has during his more than six years as County Judge.

Judge McHugh retires soon from the office of County Judge to take the important post of County Auditor. No man in the county could be so well fitted to discharge the duties of Auditor as Judge McHugh is. Almost all his adult life has been spent in the service of Wilbarger County. He knows the many details of the County business as no other person does. He knows the law governing the expenditure of public money.

District Judge Leak did well when he appointed Mr. McHugh County Auditor. The new position places Mr. McHugh where he is largely independent of the changing political conditions. The County can get the benefit of his knowledge of public affairs and his unquestioned ability without the necessity of his making a campaign every two years to retain the support of a fickle public who do not always appreciate the value of long experience and faithful service.

Wilbarger County has been blessed in the past by the service of competent and trustworthy officials, but E. L. McHugh's record stands out in a way that is a compliment to him and the people he has served so well for so long a time. The best years of his life have been devoted to the people of this County and The Record believes that it voices the sentiment of a large majority of the people when it expresses delight that he has been appointed to a position that will keep him in the service of the County.

THE MAN-KILLING JOB.

Persons familiar with the duties imposed on a President of the United States generally agree that Mr. Harding was a victim of the heavy strain of overwork which the office entails.

Undoubtedly there is much reason to support this belief. Perhaps no other man in the world is called upon to discharge so stupendous a task as the President of the United States. Every

appointive officer of the Government from the postmaster in the smallest cross roads office on up to cabinet ministers get their commissions from the President. No important business can be transacted by the Federal Government without the President's approval. This duty he cannot shift to other shoulders, because the law places it upon him. He cannot organize the vast business of the Government as the head of a great corporation can do.

Add to these duties the responsibility of leadership in legislative matters, international affairs and the social duties which custom has fastened upon the occupant of the White House and it is readily apparent that the physical effort necessary to meet the exacting conditions of his office, aside from any mental or nervous energy which must be expended, are of such nature and magnitude as to wear down the most robust of men. But it is idle to say that the President can sidestep much of the work which has been placed upon him. He would be a man entirely unfit for the high office if he could allow others to decide matters, make appointments and perform the thousand things necessary to be done for which the law makes the President responsible.

President Wilson was a man of robust health and his years not sufficiently advanced as to bring him under influence of the infirmities of old age, and he broke down completely. Mr. Harding came into office similarly situated, and he died before he could be called an old man. It is true that these men served during unusual times when compared with former times in the history of our country, but it is highly improbable that the future will bring problems any less serious. Each year adds to the task of Government and we ought to devise a way to relieve the President of some of his multitudinous burdens. We cannot get the best that our Presidents have to offer if we place upon them duties too large for them to bear without danger of breaking their health. Perhaps the misfortune which overtook President Harding will arouse Congress to the point where it will feel obligated to place upon others some of the duties it has required the President to perform in the past. We need the sober leadership of mature age in the presidency but if we are to expect the best results we must not require him to do the things which only a man in the flush of youthful physical vigor can hope to be equal to.

THEORY OF EXAMPLE
(By Phoebe K. Warner)

Gladstone has said that one example is worth more than a thousand theories. Wonder why? One reason is because it's all book learning that we take in through our ears. Did you know that only 15 per cent of what we know comes through our ears? Now you can better understand why the average high school graduate and

the college and university graduates do not know any more than they do Most of their education up to the day of their diploma is theoretical.

Neither do we always believe what we see. But there is one thing we do all believe. When we do a thing we believe it. The other fellow may not believe it until he does it. The man who has raised 100 bushels of corn on the same acre where once he could only raise 40 bushels believes it. The man who has actually raised a crop in a dry country knows it can be done and it does not make any difference to him whether anybody else believes it or not, he just goes on doing things that others do not believe.

Dr. Seaman Knapp, in whose great mind was first mirrored the vision of education by demonstration, is quoted as saying that real agricultural reform would never come until the farm or himself began to grow, and became a real leader and that his growth must be founded on what he himself has done and experienced. Dr. Benjamin Wheeler of the University of California, says that demonstration is the only way to reach the men on the farm and Walter Paige of England says that education through demonstration is the greatest move of any age.

These are only a few of the things told by C. B. Martin of the Department of Agriculture, Washington, D. C., in his different lectures at the Farmers' Short course at College Station a few days ago. O. B. Martin is one of the men who took up the dream of Dr. Knapp, who died before his vision for a more practical education for farm folks was realized. The outcome of that dream was the Smith-Lever bill which became effective about nine years ago which has provided the nation with those two home missionaries, the county farm agent and the county home demonstrator.

Mr. Martin is a pioneer in home demonstration work and no man has ever initiated a greater work for women and girls than this. All praise to the men who caught a vision of better homes and happier home makers for the whole nation. Fourteen years ago Mr. O. B. Martin was a county superintendent of schools. A good position to discover the needs of the rural line if you are a person with an interest in life higher and bigger than your salary. Today he is one of the heads of a service employing over 2,000 demonstration agents, teaching more than 6,000,000 rural students.

Do you know of any other educational institution that has been created within the last ten years in our nation that has at this time more than 6,000,000 students? No, you do not, because it does not exist. A lot of folks are not going to believe this because they are only hearing and seeing it in print. They are not yet a part of this great system. They have not yet done anything for themselves or by themselves in it and therefore it is still a theory with them instead of an example. But with the 6,000,000 girls and women and boys and men who have actually done things it is a reality and they are not only doers of things but believers in the system.

There are two reasons for this condition. One reason Texas has more demonstrators is because Texas has more counties than any other State. But such work as this must be done on a strictly democratic basis and that basis is the rural population. Another reason Texas has so nearly completed her quota is because Texas appreciates

BOILS

DO YOU NEED MONEY to take up your land notes? If so, let us explain to you, the John Hancock Plan.

S. J. MATTHEW
Quanah, Texas

what the home demonstration work means to the State and the response of the county commissioners has been most generous for its support. Another reason the work must have restrictions is because it takes both money and trained workers to put this work over in a county and at this time there are not enough trained for it. The work has proven so useful, so practical, so absolutely essential from an economic and health and happiness standpoint that workers could not be discovered and trained fast enough to meet the demand. And if your county has a home demonstrator and you think you can not afford to keep her, don't worry a minute about her getting another job. It won't be a year before there will be a hundred counties in Texas wanting home demonstration agents who can not get them. If you have one now you better hold on to her until she gets the work thoroughly organized and under good headway before you let her go, for you may never be able to get one again.

Mr. Martin defines Extension work as "the readjustment of agriculture and the construction of the country home." Under the head of the Home it includes everything that helps to make home life in the country more profitable, more attractive and more healthful and happy. The better kitchen contest was one of the real thrills of the Farmers short course. The girls clothing contest, the food canning contest, the better homes work, the better garden and prettier yard work, the planning of more conveniences and labor and time savers is one of the greatest features of home demonstration work. Why, men believe in every device that will save their time and labor and strength. Why should not women come in for their share? And it isn't only saving the bodies of our women and girls but it is saving their souls and spirit and developing a new enthusiasm in rural life that for years has been threatened with desertion. It is great. So great that no one can understand it by hearing about it or even seeing it. You just have to be a part of it and do the things yourself to understand its value, for, after all, the only things we truly know are the things we do.

OLD TIME VESSELS ARE PUZZLE MODERN MARINES

The reappearance of the Leviathan on the high seas caused many an "old salt" to reflect on the passing of the American sailing ship which has now virtually disappeared. The modern mariner, however, knows as little about the old-time sailing vessels as the flapper knows about her great-grandmother's spinning wheel.

The U. S. Marines at their sea-going school here are familiar with nautical terms and can quote the nomenclature of a modern oil-burner from bow to stern. But when an examiner

Be Rid of That Ache

If you are a sufferer with lame back, backache, dizziness, nervousness and kidney disorders, why don't you try the remedy that your own neighbors recommend? Ask your neighbor.

Mrs. C. H. Dalmasso, 299 Lexington St., Vernon, Texas, says: "I suffered greatly from kidney trouble and rheumatic pains. My back throbbed and ached all the time and was so lame and sore mornings when I first got up I could hardly straighten. The muscles in my back and hips were lame and stiff. My kidneys acted irregular and bothered me a great deal. I was advised to try Dean's Kidney Pills and bought a supply from the Ferguson Drug Store. I had relief from the start and a few boxes of this medicine cured me of the attack."

Price 60c, all dealers. Don't simply ask for a kidney remedy—get Dean's Kidney Pills—the same that Mrs. Dalmasso had. Foster-Milburn Co., Mfrs., Buffalo, New York.

RIGHT IS MIGHT AND WILL SUCCEED**"DON'T LET CRITICISM SOUR YOU"**

Anybody who does anything at all worth while in this world will surely be criticised by somebody and undoubtedly by several somebodies.

If you will listen in and take note of the conversations, the dialogue, or the group choruses that come to your ears you will perhaps be surprised to note that at least two-thirds of what you hear consists of mild or rancid criticism of somebody or something.

The man who can't do things always has plenty of time to find fault with the man who can.

To the thin-skinned, or super-sensitive man, criticism acts as a poison. It dams up his energy and sets the brakes on his ability.

The chronic criticiser is always a runt. He realizes his own mental, moral and physical deficiencies, and so, back of and as a prod to his criticisms is a desire to pull his neighbor down to his own recognized inability and inefficiency level.

The strong man, the man who arrives is the man who maps out his own course, changes when he finds he is in the wrong, but who does not allow himself to be whipped, lacerated and his progress be impeded by the mouthings of every whippersnapper who is always looking for a defective spot in every apple into which he bites.

Mr. and Mrs. Dorsey Chisum re-

You Can Remodel Your Home

THE ADDITION of a room, or a porch, or sleeping porch or some other feature to your home costs comparatively little and adds much to home comfort and convenience. Very often little inexpensive touches will make the old home much more attractive and more valuable. You can get valuable suggestions for remodeling from our plan service, which shows the exteriors and floor plans of so many conveniently arranged, attractive homes. We can help you, too, with suggestions. We'll be glad to give this our personal attention and tell you just how much the suggested improvements will cost.

Federation To Meet Thursday

Mrs. C. M. Blair, president of the Wilbarger Federation of Woman's clubs is calling a meeting of the Federation for Thursday afternoon at 4 o'clock. All presidents of the various clubs as well as delegates are asked to be present at the time.

Chairman of the committees appointed some time ago for community week are also asked to appear and give a report as to the work done toward staging the event. September 3 is the opening date set for community week which will take place in Allingham park.

Railroad Official Here

Mrs. C. W. Igon and children of Electra and Walter Igon, of St. Louis, traveling passenger agent for the N. C. & St. L. visited in Vernon a short time Sunday en route to Dooms, where they spent the day with Mrs. Igon's father C. F. Doan.

Curtis Piper Improving

Curtis Piper, who submitted to an operation for appendicitis Saturday morning at a local sanitarium, is reported to be recovering. He was taken seriously ill last week and surgeons were unable to operate until Saturday on account of his condition.

Princess of Houston Visits Here

Miss Thelma Young, of Houston and Hugh Tull, of Plainview spent a short time with his uncle, Dr. J. L. Tull and family, of West Yampitka street Sunday. They were motoring through from Wichita Falls to Plainview, where Miss Young will visit friends. Miss Young was princess of Houston at the Cotton Palace last fall at Waco and Mr. Tull acted as her attendant.

County Agent Returns

Mr. and Mrs. P. D. Chaney, have returned from College Station and other points in that section of the state. Mr. Chaney, who is County Farm Agent, attended the short course at A. and M. College while in College Station.

Wedding of Interest Here

Friends have received notice of the marriage of Miss Abbie Crawford, of Hereford, and Clarence C. Martin, of Amarillo, which occurred July 22 in Amarillo. Mrs. Martin was a former Vernon girl, the daughter of J. L. Crawford.

Mrs. Roy Hancock of Oklamoon, is a sister of the bride. The couple will live in Amarillo.

VERNON PRESENTS CLAIM FOR TECHNOLOGICAL SCHOOL

WILBARGER OFFERED BETTER INDUCEMENT TO BUILD HIGHWAYS

Officials Visit Vernon
After Trip Over High-
way and Pledge Maxi-
mum Aid to County

Wilbarger County can complete the paying on the Colorado-Gulf highway to the county line each direction and get the Lee highway paved clear through the county from the Red river to the Ford County line by voting bonds to take care of only one-third the cost of the work.

This was the statement made by two members of the State Highway Commission, Chairman R. M. Hubbard of New Boston and D. K. Martin of Itasca, who were here Sunday afternoon following a trip over the Lee Highway from Plainview to Vernon.

Some time ago County Judge E. L. McHugh was informed by the Commission that State and Federal aid would be given to the extent of two-thirds of the cost on the Colorado-Gulf highway and to the extent of one-half the cost of the Lee highway.

The two Commissioners were so impressed with the importance of the territory served by the Lee Highway however, after making the trip over it from Plainview to Vernon that they agreed to raise the allowance of aid on this road to the maximum set for the Colorado-Gulf highway, which is one of the most important highways in the Southwest.

This proposition means that Wilbarger County can get approximately forty miles of additional paving at an estimated cost of \$40,000 per mile for an outlay of only \$400,000. This improvement would give two paved roads through the county to the adjoining county line in each direction. The bond issue to cover the County's share of the cost of these roads would necessitate a tax levy of not to exceed 25 cents on the \$100 valuation.

One of the chief reasons the two Commissioners made this exceptional offer, as explained by them, is the type of roads which have been built in this county. The two Commissioners very frankly stated that in their opinion there are no better roads in Texas than the paving which has been done here, and they feel that not a penny of the aid which they have extended in the past has been wasted. Their confidence in the manner in which the County Commissioners have handled road money in the past led them to make the offer which they submitted Sunday afternoon, according to opinions expressed in the informal conference held at the Hotel Vernon soon after their unexpected arrival here from Plainview.

Both Commissioners Hubbard and Martin were accompanied by their wives and they were guests at an informal dinner given them by local people at the Hillcrest Country Club Sunday evening. Members of the party were enthusiastic in their praise for the appearance of Vernon as a city and of the hospitality of the people. They left early Monday morning for Fort Worth and other points east to continue their inspection of a number of highway projects.

Commissioner Hubbard says the progress in highway development in Texas is highly satisfactory at least twenty-seven million dollars worth of highway improvement is under way in Texas at the present time, he said.

Touring Colorado

Mr. and Mrs. S. A. White and Mrs. Foster Edmonson and little daughter left yesterday for Denver and Colorado Springs. They went by automobile and will be gone about three weeks.

To Undergo Operation

Miss Mary Katherine Massie will leave this afternoon for Rochester, Minn., where she will undergo a minor operation at the Mayo Brothers Institute. She will be met in Amarillo by her aunt, Miss Grace Massie, who will accompany her.

BLIND SINCE BIRTH SIGHT IS RESTORED

Lillian Palen

Eight-year-old Lillian Palen, of Indianapolis, Ind., blind since her birth has had her sight restored by a delicate operation performed by Dr. J. E. Whitacre. Four years after birth she was abandoned by her parents. Her pitiable case was brought to the attention of Dr. Whitacre, who charitably removed the cataract from her eyes, giving her sight.

VERNON SCHOOLS GIVEN CREDITS

TOTAL UNITS NOW AS HIGH AS
MANY SCHOOLS IN LARGER
CITIES OF STATE

Vernon's Public Schools now have a total of 29 1/2 units of affiliation. This makes the schools here among the highest in the state, ranking with schools in cities four and five times this large.

Notice of two additional credits being granted was received yesterday by Superintendent E. L. Dohoney. The additional credits are for one half unit in each of the four following subjects: domestic art, trigonometry, economics and manual training.

When Mr. Dohoney came to Vernon two years ago as superintendent of the city schools there were only 22 units of affiliation. He has built the schools up in the two years until they now rank with the best in the state, only a few cities in Texas having more credits than Vernon.

Farmers Can Pork for Year's Supply at Ronda Friday

There was a day of pork canning at the W. W. Welch home, near Ronda, Friday of last week. Mr. Welch and Alf Bond both killed hogs and Miss Eula Goodfellow, home demonstration agent, supervised the canning.

There were about 24 people, who participated in the canning and more than 250 cans of fresh pork were put up in the form of sausage, canned spare ribs, fried pork steaks, back bone and in addition to all the canning 40 pounds of lard was rendered.

MAN HAS HAND MASHED IN OIL RIG ACCIDENT

Edgar Walker, of Iowa Park, is in a local hospital with three fingers gone from his right hand as the result of an accident at an oil rig near Oklaunion yesterday morning. His hand was crushed when some heavy material fell on it and three fingers had to be removed.

Mr. Walker was brought to a hospital here where he was reported this morning to be resting well.

Back From El Paso

Miss Minnie Foster has just returned home from Roswell, N. M., and El Paso where she and her sister, Mrs. J. B. Ray, of Tahoka, have been visiting. Mrs. Ray accompanied Mrs. Foster home and will visit here for a short time.

THOUSANDS HERE FOR FORD DAY PARADE MONDAY

Visitors Begin to Throng
Streets Early in Morn-
ing and Town Crowded
by Time Parade Starts

Ford day in Vernon, Monday, was a whaling success. It was estimated by business men that more than 5000 people were here for the day from nearby communities and there were many here from out of the county.

The crowd began to gather early in the morning and by time the parade started at 3 o'clock the streets were crowded with people. Cars were parked several blocks away from the square as the downtown streets were so crowded there was no more parking room.

The parade started at 3 o'clock led by the Vernon Concert Band. There were all kinds of Fords in the parade. There were big families, small families, ugly men, good looking women, tall men, short men, bobbed haired girls and every prize offered attracted interest.

As soon as the judges made their decisions those who won prizes went to the stores that offered them and were given the articles offered.

As Ford Day was also Dollar Day, the merchants had on special sales and hundreds of those who came here for the day took advantage of the cheap prices offered.

A booth erected downtown by the women, who are improving Allingham Park, to serve refreshments, did a land office business. The proceeds of the sales are to go into the fund for improving the park. The day was remarkably free from any disturbances and all who came here entered into the spirit of the event.

Railroad Man Hurt When Car Derails on Frisco Tracks

John B. Grey, of West Plains, Mo., has been sent to the Frisco hospital as the result of an accident here last Friday afternoon. He was working with a crew on the Frisco road when a tank car, which fell from the rails crushed one of his hands badly, one of his little fingers being crushed off.

Mr. Grey was given attention by the company's surgeon here and was then sent to the company hospital. He is 42 years old.

Easterling Is Made Official Reporter for District Court

T. R. Easterling has resigned as Deputy County Clerk of Wilbarger County and has gone to Childress, where he will assume his duties as official stenographer for the newly created 100th District Court. He assumed his duties yesterday.

C. D. Greene has been appointed Deputy County Clerk to succeed Mr. Easterling and assumed his duties here yesterday.

Missionary Union for Two Counties to Meet Here Soon

The Woman's Missionary Union of the Wilbarger-Foard Baptist association will meet at the Vernon Baptist church in convention, August 14, 15, 16, and 17. Three books will be taught. They are: W. M. U. Methods, How To Pray and Strength to Strength. All women of the churches of the association are asked to attend. Detailed plans for the meeting are being made and will be announced later this week.

N. P. Whitesides, of Tolbert, who has been very ill for some months left Saturday for North Carolina, where he will make his home with a brother.

LATE PICTURE OF THE NEW PRESIDENT

This is the latest picture of the New President of the United States. The picture of President Calvin Coolidge and members of his family, was taken at Plymouth, Vt., last week. He was visiting his father, John C. Coolidge at the time President Harding died. With President Coolidge in the picture are Mrs. Coolidge, their sons, Calvin Jr., and John and the President's father.

JUDGE M'UGH IS COUNTY AUDITOR

HAS BEEN OFFICIAL IN COUNTY
FOR MORE THAN 20 YEARS
HAS PROGRESSIVE RECORD

Judge E. L. McHugh tendered his resignation as County Judge of Wilbarger County after many years service, and has been appointed county auditor for the county. He will take up his new duties in about 20 days.

Judge McHugh served the county in various official capacities for more than 20 years. During his administration as County Judge, Wilbarger county has made many rapid strides and in that time several miles of paved road have been put in and pronounced by engineers to be the best road obtainable. The road building program is still on here.

No information has been given out as to when the County Commissioners will name Judge McHugh's successor but it will more than likely be some time just prior to his assuming the duties of county auditor.

V. A. Baker Takes Buford O. Brown's Place on Newspaper

Announcement has been made by The Electra News that V. A. Baker will succeed Buford O. Brown as editor-manager of that paper. Mr. Brown has accepted an appointment as professor in Journalism in Leland Stanford University in California and will leave the latter part of this month to assume his duties there.

Mr. Baker has been connected with the Electra Star for some time and before going to Electra was connected with Wichita Falls newspapers. He is a veteran of the world war and before the war he had some experience in a bank in California.

ODD FELLOWS TO PRACTICE AT WOODMAN HALL TONIGHT

The local degree staff of Odd Fellows will practice at the Woodman hall tonight owing to the fact that the Rebekahs will use their hall for drill work at the same hour. Both teams are preparing to compete next week at Quannah at the annual meeting of the Lower Panhandle Association of Odd Fellows which meets August 15 and 16.

Marriage Licenses

Marriage licenses were issued this week to E. E. Hoffman and Mrs. Maudie Mae Dean; Guy Traylor and Dail Reynolds; T. J. McGill and Miss Gladys Allison.

LOCAL GOLFERS IN CONTEST SATURDAY

PLAYERS HERE SATURDAY FROM
WICHITA FALLS FOR UNOFFI-
CIAL GAME WITH LOCALS

Tommy Cochran, runner-up in the state golf tournament, and Judge Finlay Weldon, both of Wichita Falls, staged an informal golf match on the Hill Crest club course here last Saturday against R. B. Gibson and Hy Rogers, local low score men. The result was victory for the visitors.

Mr. Cochran has been playing in form for the last few years that he has more than once been near the state championship and lost out in the last meet by a narrow margin. Judge Weldon is one of the best players from the Wichita Falls club. Both men played in good form here Saturday but at that, they had been competition from the two local players whose form is becoming better all the time and their scores are getting down to the low line.

John Storey Plays Lucky on Friday in Wichita Falls Crash

Some people may consider Friday an unlucky day, but for District Attorney John Storey it is exceedingly lucky.

Last Friday morning the district attorney, with a friend, was drinking his early morning eye opener at the soda fountain in Tipton's Drug Store in Wichita Falls. Just as he finished and walked out the door there was a crash behind him, followed by screams and moans. He turned and saw where the ceiling had fallen, heavy metal, lath and all. Three persons were seriously injured and in the spot where Mr. Storey had stood one of the heaviest parts of the ceiling had fallen.

"I more than likely would have been killed had I been in that spot when the ceiling fell," Mr. Storey said.

ELDERLY MAN DIES HERE MONDAY NIGHT

J. K. Langley, 79, of Thalia, died in a Vernon hospital last night after lingering illness. He was brought to the hospital some time ago when his condition became grave, but every effort to save his life proved unavailing.

The body will be taken to Thalia tomorrow and the funeral will be held from that place.

Mr. and Mrs. Joe Foerster, of Lockett were business visitors Monday.

LOCATING BOARD IS GIVEN HEARTY WELCOME BY VERNON RESIDENTS AND THEN TAKEN TO SITES OFFERED HERE

Formal Presentation of Claim Made This
Morning When Citizens Gather to Meet
Board In Chamber of Commerce and
Proposition Outlined in Brief

Vernon's claim for the West Texas Technological College is in the hands of the locating board. The board, consisting of S. B. Cowell, chairman; W. R. Nabours, secretary; Dr. William S. Sutton, acting president of the University of Texas; Dr. W. B. Rizzell, President of Texas A. and M. College; Dr. F. M. Bralloy, president of the College of Industrial Arts and S. M. N. Marrs, State Superintendent of Public Instruction, left here at noon today after having made a thorough investigation of the situation offered here.

After leaving Quannah yesterday the board was met at Chillicothe by about 300 Vernon boosters in automobiles, headed by the Vernon Concert Band and the Shrine Drum Corps. They were escorted to their hotels here in the evening were given a dinner at Hill Crest Country club.

Early this morning the board was taken to the two locations offered for the college. The one location of 2,000 acres was offered South of the city on the highway and the other was the Bourland farm east of the city with 300 acres immediately adjoining the city on the East as a campus site. The locating board was also taken for a drive through the city and shown the tourist camp and other points of interest.

At 10 o'clock the locating board and citizens assembled in the Chamber of

Commerce and Vernon's claim was formally presented by R. H. Nichols, president of the Chamber of Commerce. Mr. Nichols pointed out the many advantages offered by Vernon. He reviewed the bill creating the college and told how Vernon is located in the heart of the oil fields and the big Wichita River irrigation project as well as the advantages of soil, climate and water here. He pointed out the fact that Vernon is a town of homes and Wilbarger county is a county of homes and the best of environment are to be found here for a college. He said the college will receive the support of this city, regardless of where it is located.

Senator S. B. Cowell, chairman of the board, replied to Mr. Nichols saying the board appreciated the manner in which the claim of this place has been presented and that it will be given due consideration.

The board will go into its first formal business session at the Texas Hotel in Fort Worth tomorrow morning. All claims will have been received at that time, Vernon being the last, and no arguments or more evidence will be considered after today.

The locating Board members were guests of the Rotary club at luncheon today before departing for Fort Worth.

OIL ACTIVITIES AT HEIGHT HERE

THREE WELLS GOING DOWN IN
IMMEDIATE VICINITY WITH
OTHER LOCATIONS MADE

There is more oil activity in the immediate Vernon territory at this time than at any other time since the boom. There are three wells going down in the immediate vicinity of Vernon and other locations have been made. Unusually good indications have been found in a hole being drilled a few miles south of Vernon by local oil men. This location is near where a well was lost several weeks ago.

McCaleb well North of Vernon, is reported to have encountered splendid indications of oil and the well being drilled East of Vernon by Murchison and Pigg is on a location near where five sands were found a number of years ago.

The King well near Oklaunion is going down rapidly and being watched with much interest.

Oil men from various parts of the state have come in within the last few weeks and all wells in this vicinity are being watched closely.

Blackie Garner Is Freed from Charge of Murder in Archer

J. J. (Blackie) Garner, made bond in Archer City Friday and secured his liberty until trial on a charge against him here. He had been held here in connection with a recent oil field murder but was released when he proved to the satisfaction of the officers that he was not the guilty party. Another man is said to have confessed to the oil field killing for which Garner was held for a while and two others were connected with the incident.

LEGION MEMBERS TRANSFORM PARK

WITH WHITEWASH AND HAND
AXES THEY MAKE TOURIST
PARK SHOW UP WELL

The Vernon Tourist Camp has been transformed within the last few days. It shows up from the highway for a long distance and is attracting attention of people who pass without stopping, as well as those who stop.

The big feature of the transformation was the cutting of the brush and whitewashing of the trees by members of the local post, American Legion. With hand axes, whitewash and brushes members of the legion went to the park on three afternoons, whitewashed all the trees, cut the undergrowth in the park and outside on the road front away and burned it.

This improvement, in addition to the recent installation of more lights, free telephone and other equipment has made the park among the most convenient in the country.

Lem Richards Held on Liquor Charge in Foard County

Lem Richards was arrested here late last week by members of the sheriff's force on a warrant from Foard county charging him with manufacturing liquor. He was released on bond pending his trial.

When officers from four counties, including Wilbarger, made a drive on a location in Foard county last week they found where a still had been operating, found mash and found a car belonging to Richards. The sheriff of Foard county later filed charges against Richards and he was arrested here.

Guy McClendon left this morning by automobile for Colorado Springs, Colo., and other points in that state.

GOD IS FATHER OF ALL SOULS

UNIVERSALIST MINISTER EX-
PLAINS DOCTRINE IN SERMON
AT TALMAGE SUNDAY

Rev. R. L. Brooks, who has been conducting a series of meetings at Talmage, spoke on the five fundamentals of Universalism in his Sunday morning sermon. Mr. Brooks said in part, "This morning I am going to discuss the five fundamentals of Universalism from both a philosophical and scriptural standpoint."

"The God in whom the Universalists believe is the Father of all souls. Have we not all one Father? Then, not one God created us? Mal. 2:10. The fact that we have a spiritual nature in the image of God who is spirit, John 4:24, and are capable of discerning things of him as well as serving him proves natural relation to him as to character but few are sons and daughters. 'Son of perdition,' 'child of wrath,' 'children of disobedience' etc. are expressions of character and not of nature."

"The law of progeny makes it impossible to change natural relation. The child is as much a child of his father in disobedience as in obedience just as the prodigal was as much a son while steeped in sin as before going away or after his return. This is universally recognized in the natural realm. Though a son goes off in sin and years afterward returns with human bloodstains on his hands and the mark of a criminal upon his brow he is considered none the less the son of his parents."

"The world may expect to continue having war and bloodshed, economic, social, moral and spiritual disorder until the preachers proclaim and the people believe and practice the universal Fatherhood of God and the universal brotherhood of man."

"Christ is the key of the arch of the temple of pure religion. He is the mediator between God and man, the man Christ Jesus who gave himself a ransom for all to be testified in due time. 1 Tim. 2:5, 6. Christ says 'He that believeth on me hath everlasting life.' John 6:47. He has this life now while he believes and obeys. One's obedience to Christ is the measure of his faith in him. Faith only will not save, but faith that works by love. Jas. 2 Chapter."

"We have hardly tried the Christian religion. Just here and there are those who have made any appreciable progress to that end. But Christianity is not a failure. We are failures who do not use it."

"Too many 'get religion' and pack it away in their suit cases or paper boxes with moth balls expecting it to carry them safely over into Heaven after death, depending thus upon mere faith once expressed to save them from past, present and future sins as well as the consequent punishments not realizing that pure religion is a life of daily service, being and doing. Jas. 1:27."

"All scripture is given by inspiration of God, and is profitable for doctrine, for reproof, for correction, for instruction in righteousness." 2 Tim. 3:16.

"While we believe the Bible contains a revelation of and from God we do not believe it contains all the revelation. God is too infinite in all his attributes, comprehending entirely too much to be bound up between the two lids of any book or number of books. He is omnipresent, limited only by the infinity of space; omniscient so that nothing is beyond his comprehension, declaring the end from the beginning; Isa. 46:10; Omnipotent so that no power or combination of powers can defeat him in whatever is comprehended in his infinite wisdom and goodness."

"By Him are all things. The law of philosophy, science and invention which, to our shame, has improved and modernized everything except religion, is the channel through which revelations are daily being made."

True religion is progressive. Paul says 'grow in grace and knowledge.' Christ taught that greater things than he did would be done. 'Let us go on unto perfection' says Paul. Just as we use our talents in developing the use and application of electricity according to a fixed law which is sure reveals to us a new world of accomplishments that will make the present fade into insignificance, so must the church of tomorrow 'scaffold' to us through religion and law of the spirit a world equally transcendent."

"Religion is not fixed in principle. Man is not made, finished, perfected, but being made, finished, perfected."

"We believe in the certainty of punishment, for sin. On this point, as perhaps on no other, Universalists are ignorantly and some times maliciously misrepresented. Most people who differ from us when asked what we believe say 'they don't believe in hell, or punishment.' But in fact the Uni-

LIKED SISTERS SO WELL, HE MARRIED TWO

E. O. Davis and Mrs. Davis No. 1
Below - Mrs. Davis No. 2

E. O. Davis, of Los Angeles, is under arrest there on a charge of bigamy, he being alleged he liked the two Stocklin sisters, Anna and Theresa, so well, he married both.

versalist church is the only one which specifically states in its profession of faith belief in the certainty of punishment for sin. In evidence we offer the following: 'Be not deceived, God is not mocked; for whatsoever a man soweth that shall he also reap, Gal. 6:7, and he that doeth wrong shall receive for the wrong which he hath done, and there is no respect of persons; Co. 2:5. 'God will by no means clear the guilty.' Exodus 34:7. Punishment is not only certain but just, according to the deeds done in the body, 'for the work of man shall render unto him, and cause every man to find according to his ways.' Prov. 4:11. Also unto the O Lord, belongeth mercy; for Thou renderest unto every man according to his work.' Ps. 62:12."

"The doctrine of endless punishment, as taught by many, holds the hungry child who steals a loaf of bread as guilty as the hardened criminal of seventy five years, who has robbed, dissipated and even murdered, because they make no difference in the punishment administered. We seem to recognize justice in every thing but in religion. We protest at the injustice of the law and its application in the courts of our land but worship a God whose government is a million times worse if the doctrine of endless punishment be true."

"Just punishment implies more than punishment according to the deeds done in the body. It implies that God who inflicts it has a purpose and that that purpose is for good, for God could

HE APPLIES BLUE LAWS WITH VENGEANCE

Virgil Fitch

Virgil Fitch, prosecuting attorney of Mason County, Mich., has a way of getting back at puritanically-minded women of his county who insisted that dance halls should be closed on Sunday. Mr. Fitch, apparently began a study of every blue law on the statute books of Michigan and began applying them with a vengeance in Ludington, the county seat and the rest of the county. 'What's fair for one is fair for all,' he asserts. The first person he was called upon to prosecute was his own son, charged with dancing on Sunday.

TEXAS FACTORIES WORTH MILLIONS

MANUFACTURED PRODUCTS IN
THIS STATE EACH YEAR VAL-
UED AT 1 BILLION DOLLARS

There is a total investment of approximately \$600,000,000 in Texas industries, according to a recent report made by Earl C. Blanton, manager of the industrial department of the Texas Chamber of Commerce. The amount invested in industries is divided between 4,520 manufacturing plants which turn out products each year valued at approximately \$1,000,000,000. Speaking of industries, Mr. Blanton said last week:

"The total capital invested, based on reproduction cost, in seven classes or groups of industry in Texas, namely: Compresses; cotton gins; cotton seed oil mills; cotton textile mills; cement manufacturing plants; ice and cold storage plants; and power and light plants, amounts to approximately one-half of the total investment in the State, the survey shows to date, or approximately \$237,030,000."

"The total investment in the cotton industry in Texas, namely: compresses; cotton gins; cotton seed oil mills; cotton textile mills; based on reproduction cost, is approximately \$115,000,000."

"There are 3,611 cotton gins in the State of Texas, representing an original investment of approximately \$33,110,000," Mr. Blanton said. "The replacement cost in this industry would run from approximately \$54,165,000, to \$72,220,000. Total rated output of cotton gins in Texas, based on a ten hour run, is approximately 123,385 bales," said Mr. Blanton.

Cotton Seed Oil Mills and By-Products Plants

"There are approximately 161 cotton seed oil mills and 61 by-product cotton plants in Texas."

"The total original investment in cotton seed oil mills was approximately \$14,490,000, while the replacement cost would amount to in excess of \$25,000,000," said Mr. Blanton. "The total rated capacity of cotton seed oil mills in Texas amounts to about 15,000 tons of seed per day."

"There are twenty cotton textile mills and two knitting mills now operating in the State of Texas, namely:

PRESIDENT LEWIS PREDICTS ANTHRACITE COAL STRIKE

John L. Lewis

John L. Lewis, president of the United Mine Workers of America, in commenting on the refusal of the anthracite coal operators to recognize the union and adopt the "check off" system, by which the operators would collect union dues and fines, declared in Atlantic City his belief that this winter will see another hard-coal strike and that it might even extend to the bituminous fields.

SAVES BABIES, helps grown-ups, comforts elderly people, for cholera infantum, summer complaint, weakening diarrhoea—use CHAMBERLAIN'S COLIC AND DIARRHOEA REMEDY. Take in a little sweetened water. Never fails.

FARM LOANS made promptly. Most liberal terms and prepayment privileges on the new John Hancock Plan.

CATARRH

Catarrh is a local disease greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE consists of an Ointment which gives quick Relief by local application, and the Internal Medicine, a Tonic, which acts through the Blood on the Mucous Surfaces and assists in ridding your system of Catarrh.

Sold by druggists for over 40 Years. F. J. Cheney & Co., Toledo, O.

sent a total investment, based on current values, of approximately \$25,000,000. Mr. Blanton said, "with a total of 177,936 spinning spindles; 4,333 looms and 150 knitting machines."

FOSTER'S WEEKLY WEATHER BULLETIN

Washington, Aug. 6, 1923. One more crocweather month to encounter in the crocweather season; corn, the greatest grain crop of America, is at stake. September is favorable to corn except the week centering on Sept. 10, making three-fourths of September favorable to the great American corn crop does not occur, but that one bad September week looks ugly for our farmers. That week of storms promises unusually heavy rains, followed by killing frosts in northern section. I am advising not to sow winter grain for one-third of North America. Hold your wheat and other grain till December. The profuse hedging compels this course and the only way to stop it is to prohibit the hedging on grain during June, July and August. That would leave three-

WILL TRY PRINCESS BRIDE FOR HIS MURDER

Princess Fahmy

Here is the latest portrait of Princess Marie Marguerite Fahmy, beautiful French woman, wife of the late Ali Kamel Fahmy Bey of Egypt, who must stand trial in London for the murder of her husband, whom she shot to death during a quarrel in their apartments in the Hotel Savoy, in London.

fourths of the year in which dealers in grain futures would have ample time to run their schemes and would give producers, who are compelled to sell during the harvest, better markets. I repeat it: the grain futures hedge is a devil fish and a robber and the producers cannot get a fair deal unless the hedge is prohibited during the three summer months when it is most used to put grain market prices down.

Section 1: North of 47, between 90 and Rockies' crest; warm Aug. 9 and 10, cool 14 and 22, average warm; severe storms and some rain near 18.

Sec. 2: North of 47, east of 90; warm Aug. 11 and 23, cool 16 and 24, average warm; severe storms and some rain near 18.

Sec. 3: Between 39 and 47 and between 90 and Rockies' crest; normal temperatures Aug. 11, cool 14, normal 19; average cool; severe storms and some rain near 17.

Sec. 4: East of 90, between latitudes 39 and 47; warm near Aug. 11 and 23, cool 14, normal 20; average warm; severe storms and some rain near 19.

Sec. 5: South of 39, west of 90; warm near Aug. 11, cool 16, normal 22; average cool; severe storms and some rain near 19.

Sec. 6: South of 39, west of 90; warm near Aug. 11, cool 16, normal 22; average cool; severe storms and some rain near 19.

Sec. 6: South of 39, west of 40;

warm near Aug. 11, cool 16, normal 22; average cool; severe storms and some rain near 19.

Sec. 7: North of 43 1-2, west of Rockies' crest; warm near Aug. 11 and 15, cool 13 and 19, average warm; severe storms and some rain near 21.

Sec. 8: South of 43 1-2 to Mexican line, west of Rockies' crest; warm near Aug. 11 and 15, cool 13 and 17; severe storms and some rain 21.

I began publishing these weekly weather bulletins August, 1880, in the "Chillicothe, Missouri, Tribune," and this is weekly number 2355 more than 43 years, without missing a week and the copy for every one was written by my own hand in pencil. Beginning with last part of September I am promising the most wonderful success ever known in weather forecasting.

do not mean better than U. S. Weather Bureau forecast published one day in advance but more wonderful because written from one to twelve months in advance. Charts will be simplified; more like the old, easily understood; storm tracks and precipitation more clearly located and defined; improved forecasts on Gulf hurricanes. Critics are invited to criticize after middle of September.

Morgan Ramsey returned home Saturday from a visit in Honey Grove. He was accompanied home by Mr. and Mrs. T. F. Ramsey and children and Miss Maude Lee Ramsey.

BEST PROSPECTS FOR S. M. U. TERM

METHODIST COLLEGE IS FACING
BRIGHTEST YEAR IN HISTORY
ACCORDING TO PRESIDENT

Dallas, Texas, August 6.—Prospects for the year 1923-24 at Southern Methodist University are the brightest since the foundation of the school, according to Dr. C. C. Sealeman, president. Dr. Sealeman forecasts that the year will witness completion of the \$1,000,000 endowment campaign, construction of the new building, Kirby Hall, to house the School of Theology, growth of the student body to nearly 2,500, and last, but not least in the minds of the undergraduates, the most successful athletic season in the school's history.

Since commencement two announcements of importance have been made: the appointment of Mrs. S. J. Hay, wife of the former mayor of Dallas, to succeed Miss Emily Reid as Dean of Women, and the building of a temporary wooden structure to house the Chemistry Department. Dr. Sealeman was particularly pleased at obtaining the services of Mrs. Hay, and the erection of a Chemistry shack will be news of interest to those students who have had to suffer the inadequate quarters formerly assigned that department. Work has begun on it this month.

Under the supervision of a finance committee headed by Bishop John M. Coors, the final touches are to be put in the coming year on the drive for the remainder of S. M. U.'s share in the \$1,000,000 endowment, one-third of which will be given by the Rockefeller General Educational Board. Unexampled liberality of friends of the school during the year just passed leads the University authorities to believe that the amount, approximately \$480,000, still to be raised, will be in hand by March, 1924.

Architects are finishing up the plan for Kirby Hall, named after Mr. and Mrs. Harner Kirby of Austin, who gave the \$100,000 for its construction. Foundations for the building have been staked off and excavation will begin in the immediate future. Dean Paul B. Kern of the School of Theology expects to move his staff and students in soon after Christmas.

Dr. Sealeman's belief that the student body will come near the 2,500 mark is substantiated by the average rate of growth since the institution started, in 1915, with 700 students. Since then the growth has been: 1,310; 1917, 779; 1918, 864; 1919, 1,195; 1920, 1,341; 1921, 1,711; 1922, 2,083. If the attendance continues to increase at the rate indicated, there will be a total of 2,200 next year.

CARD OF THANKS

We wish to thank each and every one of our loyal friends and neighbors for their help and comfort extended to us during the illness and death of our darling baby girl.

McMurry College Is to Open Doors for First Time This Year

McMurry College, at Abilene, will open its doors this year for the first time. The college term begins September 19 and the new buildings will practically all be completed by that time, according to word that has been received from Abilene.

After telling of the splendid administration building the college has almost completed, a recent article on the following information:

Carrying out the architectural plans for the grounds, a second building which will be used this year as a dormitory for the young women, is now under construction and will be completed by the first of September. At a later time it is proposed, when the dormitories both for the boys and the girls, as outlined in the original plan, are completed, to use this building as a co-operative home, but for the present it will constitute a commodious and handsome home for forty four young women.

"Building adjoining the grounds are nearing completion and will be ready for occupancy by the boys before the opening date. A visitor to the grounds is impressed with the fact that the hill is literally alive and pulsing with the energy of the great church that is entering upon its divine mission for the Christian training of the youth that have come within the pale of its influence.

"In the establishment of an institution, of the character of McMurry College, there are four points to consider in its affiliation with the higher institutions of learning that are of vital importance to every student entering its door. These are: first, the buildings; second, equipment; third, faculty and fourth, maintenance. In the building of this college all four of these points have been safeguarded from the first. The administration building will take rank with school buildings of the first rank in Texas. In the construction, size and arrangement of the Administration offices, the President's, Dean's and Bursar's offices, the Teachers' offices, Library, class rooms, laboratories and Fine Arts Departments, the building is far in excess of the requirements of the State Board of Education.

WELL KNOWN YOUNG
COUPLE MARRIED SUNDAY

In the presence of a few close friends of the couple Miss Gladys Allison and T. J. McGill were married Sunday morning at 9 o'clock. The ceremony was read by Dr. L. J. Mims, pastor of the Baptist church at his home on South Main street.

After the ceremony, Mr. and Mrs. McGill left for a nexted wedding trip.

The bride is the daughter of Mr.

CUNO GOVERNMENT LIKELY TO
FALL SHORTLY

Gustav Stresemann

The cabinet of Chancellor Cuno, of Germany, is expected to resign when the Reichstag convenes shortly, to be succeeded by a Ministry headed by Dr. Gustav Stresemann, leader of the People's Party and a leading industrialist. Stresemann has told President Ebert he would take over the reins of government if he was given dictatorial powers and was permitted to make a coalition with the Socialists, who have adopted an attitude of benevolent neutrality toward the German Government.

A FAITHFUL SERVANT.

E. L. McHugh has been in the service of Wilbarger County so long that the courthouse would hardly seem complete without him. As County Clerk, Tax Collector, Judge and in other official capacities he has rendered signal service to the County, but in none of his work has he been able to bring into full play his qualifications and abilities combined with familiarity with the County business to the extent that he has during his more than six years as County Judge.

Judge McHugh retires soon from the office of County Judge to take the important post of County Auditor. No man in the county could be so well fitted to discharge the duties of Auditor as Judge McHugh is. Almost all his adult life has been spent in the service of Wilbarger County. He knows the many details of the County business as no other person does. He knows the law governing the expenditure of public money.

District Judge Leak did well when he appointed Mr. McHugh County Auditor. The new position places Mr. McHugh where he is largely independent of the changing political conditions. The County can get the benefit of his knowledge of public affairs and his unquestioned ability without the necessity of his making a campaign every two years to retain the support of a fickle public who do not always appreciate the value of long experience and faithful service.

Wilbarger County has been blessed in the past by the service of competent and trustworthy officials, but E. L. McHugh's record stands out in a way that is a compliment to him and the people he has served so well for so long a time. The best years of his life have been devoted to the people of this County and The Record believes that it voices the sentiment of a large majority of the people when it expresses delight that he has been appointed to a position that will keep him in the service of the County.

THE MAN-KILLING JOB.

Persons familiar with the duties imposed on a President of the United States generally agree that Mr. Harding was a victim of the heavy strain of overwork which the office entails.

Undoubtedly there is much reason to support this belief. Perhaps no other man in the world is called upon to discharge so stupendous a task as the President of the United States. Ev-

ery appointive officer of the Government from the postmaster in the smallest cross roads office on up to cabinet ministers get their commissions from the President. No important business can be transacted by the Federal Government without the President's approval. This duty he cannot shift to other shoulders, because the law places it upon him. He cannot organize the vast business of the Government as the head of a great corporation can do.

Add to these duties the responsibility of leadership in legislative matters, international affairs and the social duties which custom has fastened upon the occupant of the White House and it is readily apparent that the physical effort necessary to meet the exacting conditions of his office, aside from any mental or nervous energy which must be expended, are of such nature and magnitude as to wear down the most robust of men. But it is idle to say that the President can sidestep much of the work which has been placed upon him. He would be a man entirely unfit for the high office if he could allow others to decide matters, make appointments and perform the thousand things necessary to be done for which the law makes the President responsible.

President Wilson was a man of robust health and his years not sufficiently advanced as to bring him under influence of the infirmities of old age, and he broke down completely. Mr. Harding came into office similarly situated, and he died before he could be called an old man. It is true that these men served during unusual times when compared with former times in the history of our country, but it is highly improbable that the future will bring problems any less serious. Each year adds to the task of Government and we ought to devise a way to relieve the President of some of his multitudinous burdens. We cannot get the best that our Presidents have to offer if we place upon them duties too large for them to bear without danger of breaking their health. Perhaps the misfortune which overtook President Harding will arouse Congress to the point where it will feel obligated to place upon others some of the duties it has required the President to perform in the past. We need the sober leadership of mature age in the presidency but if we are to expect the best results we must not require him to do the things which only a man in the flush of youthful physical vigor can hope to be equal to.

THEORY OF EXAMPLE

(By Phebe K. Warner)

Gladstone has said that one example is worth more than a thousand theories. Wonder why? One reason is because it's all boots learning that we take in through our ears. Did you know that only 15 per cent of what we know comes through our ears? Now you can better understand why the average high school graduate and

the college and university graduates do not know any more than they do. Most of their education up to the day of their diploma is theoretical.

Neither do we always believe what we see. But there is one thing we do all believe. When we do a thing we believe it until he does it. The man who has raised 100 bushels of corn on the same acre where once he could only raise 10 bushels believes it. The man who has actually raised a crop in a dry country knows it can be done and it does not make any difference to him whether anybody else believes it or not, he just goes on doing things that others do not believe.

Dr. Seaman Knapp, in whose great mind was first mirrored the vision of education by demonstration, is quoted as saying that real agricultural reform would never come until the farmer himself began to grow, and became a real leader and that his growth must be founded on what he himself has done and experienced. Dr. Benjamin Wheeler of the University of California, says that demonstration is the only way to reach the men on the farm and Walter Paige of England says that education through demonstration is the greatest move of any age.

These are only a few of the things told by C. B. Martin of the Department of Agriculture, Washington, D. C., in his different lectures at the Farmers' Short course at College Station a few days ago. O. B. Martin is one of the men who took up the dream of Dr. Knapp, who died before his vision for a more practical education for farm folks was realized. The outcome of that dream was the Smith-Lever bill which became effective about nine years ago which has provided the nation with those two home missionaries, the county farm agent and the county home demonstrator.

Mr. Martin is a pioneer in home demonstration work and no man has ever initiated a greater work for women and girls than this. All praise to the men who caught a vision of better homes and happier home makers for the whole nation. Fourteen years ago Mr. O. B. Martin was a county superintendent of schools. A good position to discover the needs of the rural line if you are a person with an interest in life higher and bigger than your salary. Today he is one of the heads of a service employing over 2,000 demonstration agents, teaching more than 6,000,000 rural students.

Do you know of any other educational institution that has been created within the last ten years in our nation that has at this time more than 6,000,000 students? No, you do not, because it does not exist. A lot of folks are not going to believe this because they are not hearing and seeing it in print. They are not yet a part of this great system. They have not yet done anything for themselves or by themselves in it and therefore it is still a theory with them instead of an example. But with the 6,000,000 girls and women and boys and men who have actually done things it is a reality and they are not only doers of things but believers in the system.

There are two reasons for this condition. One reason Texas has more demonstrators is because Texas has more counties than any other State. But such work as this must be done on a strictly democratic basis and that basis is the rural population. Another reason Texas has so nearly completed her quota is because Texas appreciates

what the home demonstration work means to the State and the response of the county commissioners has been most generous for its support. Another reason the work must have restrictions is because it takes both money and trained workers to put this work over in a county and at this time there are not enough trained for it. The work has proven so useful, so practical, so absolutely essential from an economic and health and happiness standpoint that workers could not be discovered and trained fast enough to meet the demand. And if your county has a home demonstrator and you think you can not afford to keep her, don't worry a minute about her getting another job. It won't be a year before there will be a hundred counties in Texas wanting home demonstration agents who can not get them. If you have one now you better hold on to her until she gets the work thoroughly organized and under good headway before you let her go, for you may never be able to get one again.

Mr. Martin defines Extension work as "the readjustment of agriculture and the construction of the country home." Under the head of the Home it includes everything that helps to make home life in the country more profitable, more attractive and more healthful and happy. The better kitchen contest was one of the real thrills of the Farmers' short course. The girls' clothing contest, the food canning contest, the better homes work, the better garden and prettier yard work, the planning of more conveniences and labor and time savers is one of the greatest features of home demonstration work. Why, men believe in every device that will save their time and labor and strength. Why should not women come in for their share? And it isn't only saving the bodies of our women and girls but it is saving their souls and spirit and developing a new enthusiasm in rural life that for years has been threatened with desertion. It is great. So great that no one can understand it by hearing about it or even seeing it. You just have to be a part of it and do the things yourself to understand its value, for, after all, the only things we truly know are the things we do.

OLD TIME VESSELS ARE PUZZLE MODERN MARINES

The reappearance of the Leviathan on the high seas caused many an "old salt" to reflect on the passing of the American sailing ship which has now virtually disappeared. The modern mariner, however, knows as little about the old-time sailing vessels as the flapper knows about her great-grandmother's spinning wheel.

The U. S. Marines at their sea-going school here are familiar with nautical terms and can quote the nomenclature of a modern oil-burner from bow to stern. But when an examiner

Be Rid of That Ache

If you are a sufferer with lame back, backache, dizziness, nervousness and kidney disorders, why don't you try the remedy that your own neighbors recommend? Ask your neighbor.

Mrs. C. H. Dalmasso, 209 Lexington St., Vernon, Texas, says: "I suffered greatly from kidney trouble and rheumatic pains. My back throbbed and ached all the time and was so lame and sore mornings when I first got up I could hardly straighten. The muscles in my back and hips were lame and stiff. My kidneys acted irregular and bothered me a great deal. I was advised to try Doan's Kidney Pills and bought a supply from the Ferguson Drug Store. I had relief from the start and a few boxes of this medicine cured me of the attack."

Price 60c, all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Dalmasso had. Foster-Milburn Co., Mfrs., Buffalo, New York.

RIGHT IS MIGHT AND WILL SUCCEED

"DON'T LET CRITICISM SOUR YOU"

Anybody who does anything at all worth while in this world will surely be criticised by somebody and undoubtedly by several somebodies.

If you will listen in and take note of the conversations, the dialogue, or the group choruses that come to your ears you will perhaps be surprised to note that at least two-thirds of what you hear consists of mild or rancid criticism of somebody or something.

The man who can't do things always has plenty of time to find fault with the man who can.

To the thin-skinned, or super-sensitive man, criticism acts as a poison. It dams up his energy and sets the brakes on his ability.

The chronic criticiser is always a runt. He realizes his own mental, moral and physical deficiencies, and so, back of and as a prod to his criticisms is a desire to pull his neighbor down to his own recognized inability and inefficiency level.

The strong man, the man who arrives is the man who maps out his own course, changes when he finds he is in the wrong, but who does not allow himself to be whipped, lacerated and his progress impeded by the mouthings of every whippersnapper who is always looking for a defective spot in every apple into which he bites.

You Can Remodel
Your Home

THE ADDITION of a room, or a porch, or sleeping porch or some other feature to your home costs comparatively little and adds much to home comfort and convenience. Very often little inexpensive touches will make the old home much more attractive and more valuable. You can get valuable suggestions for remodeling from our plan service, which shows the exteriors and floor plans of so many conveniently arranged, attractive homes. We can help you, too, with suggestions. We'll be glad to give this our personal attention and tell you just how much the suggested improvements will cost.
